Nice of Laurie to offer support but couldn't do it without self interested over reach. Is that not the Laurie you know and love? And the one I have problems with? It seems so. C est la vie.

If Drollinger wants to mix the TNC non sequitur into the street vending mix, just let me know and I'll get out of the conversation.

Yes, let's talk tomorrow!

I'm told Mike's office is doing some serious research and thinking; and that he's looking for a real resolution. I'm thinking that I should go in serious, flexible, constructive, and looking for a resolution that will NOT allow street vendors in Westchester. Is that not the goal? Maybe we can use the CDO to our benefit. Time for a change, eh?

Looking forward to your direction.

Hmmm.... You need to spend some time in and around LAX to experience the TNC traffic congestion, parking congestion and trash. We all like to use the TNC's But permitting them in the CTA wasn't well thought out. Talk to Westchester business community...

Please make sure that the Opt-In language is sufficient to give property owners protection.

Peace be with you on this MLK Day!

You had me until TNCs, Laurie. It remains one of our most popular initiatives ever.. in fact, among our constituents, it's second only to ending the practice of issuing parking tickets at broken meters. :)

But thank you for your note. Mike, as you probably know, supports an opt-in as well.

Dear Councilman Bonin,

Are you visualizing street vendors along Century Blvd. / Airport Blvd., in front of the businesses / hotels or the serving the numerous construction sites that will be a part of the LAMPs?

On behalf of our stakeholders, I ask you to give consideration to the many challenges that street vending in this area would pose including first impressions to tourists visiting Los Angeles, sidewalk accessibility, street parking limitations, etc.

We support the decriminalization of street vending as long as there is language in the ordinance that allows areas to **“opt-in” and / or requires property owner consent.**

We hope that our elected representatives learn from hasty decisions to support initiatives that on the surface seem to have popular support but once adopted have unintended consequences that are difficult to roll back i.e. TNC access to LAX.

Respectfully,

Laurie Hughes
